

Combined General Meeting of May 11, 2023

- Approval of all resolutions put forward by the Board of Directors, including the unconsolidated and consolidated financial statements for the year 2022
- Ratification of the co-option of Mattias Perjos as an independent director
- The short- and medium-term outlooks are confirmed

Paris – May 11, 2023 - The Combined General Shareholders' Meeting of EUROAPI was held on May 11, 2023 in Paris, under the chairwomanship of Viviane Monges, and was attended by all directors. All resolutions put forth to a vote were adopted by the shareholders.

The General Meeting approved the unconsolidated and consolidated financial statements for the year 2022, the ratification of the co-option of Mattias Perjos as an independent director and all the compensation arrangements of the corporate officers. Following the General Meeting, the Board of Directors is comprised of thirteen members, of whom seven are independent members and two are Directors representing the employees. The Board of Directors remains comprised of a large majority of Independent Directors.

The General Meeting was an opportunity to confirm both the short- and medium-term outlooks and present several recent events, including:

- The announcement of the resumption of all prostaglandin production in Budapest in mid-April as planned
- An overview of the new R&D organization with the creation of five technology platforms
- An update on the continuation of the API Solutions business excellence strategy with the acquisition of approximately 20 customers since the beginning of the year and expansion of the API portfolio through the creation of an intermediate product portfolio

- An update on continued commercial progress in the CDMO business with 46 requests for proposals received in the first quarter, and the signing of several projects, including:
 - a contract with **Novéal** in the field of cosmetics; and
 - a partnership with a French biotechnology company: **SQY Therapeutics** for an antisense oligonucleotide to treat Duchenne Muscular Dystrophy, a rare genetic disease.
